

Welcome to Oden Control AB

Oden Control AB is since 1996 a provider of innovative reduction gear solutions for a variety of industries and applications

Valve actuators

The **Oden Electrical Actuators** consists of four basic units in different sizes, all using the patented **Oden Gear**. These units, combined with rotary or linear modules control with high precision all types of valves on the market. Until now several thousands have been shipped to the process industry.

Controlling the web

Oden P220R rotary actuator
Stora Enso Skutskär Pulp Mill
Skutskär, Sweden

Controlling the web tension - close up

Oden P220R rotary actuator
Stora Enso Skutskär Pulp Mill
Skutskär, Sweden

Oscillating wire controller

Oden P50R rotating actuator
Holmen Paper Mill
Braviken, Sweden

Grammage (basis weight) control

Oden P50R rotary actuator
Iggesund Paperboard Mill (Member of the Holmen Group)
Iggesund, Sweden

Grammage (basis weight) control

Oden P50R rotary actuator
Iggesund Linerboard Mill (Member of the Holmen Group)
Iggesund, Sweden

Controlling the damper

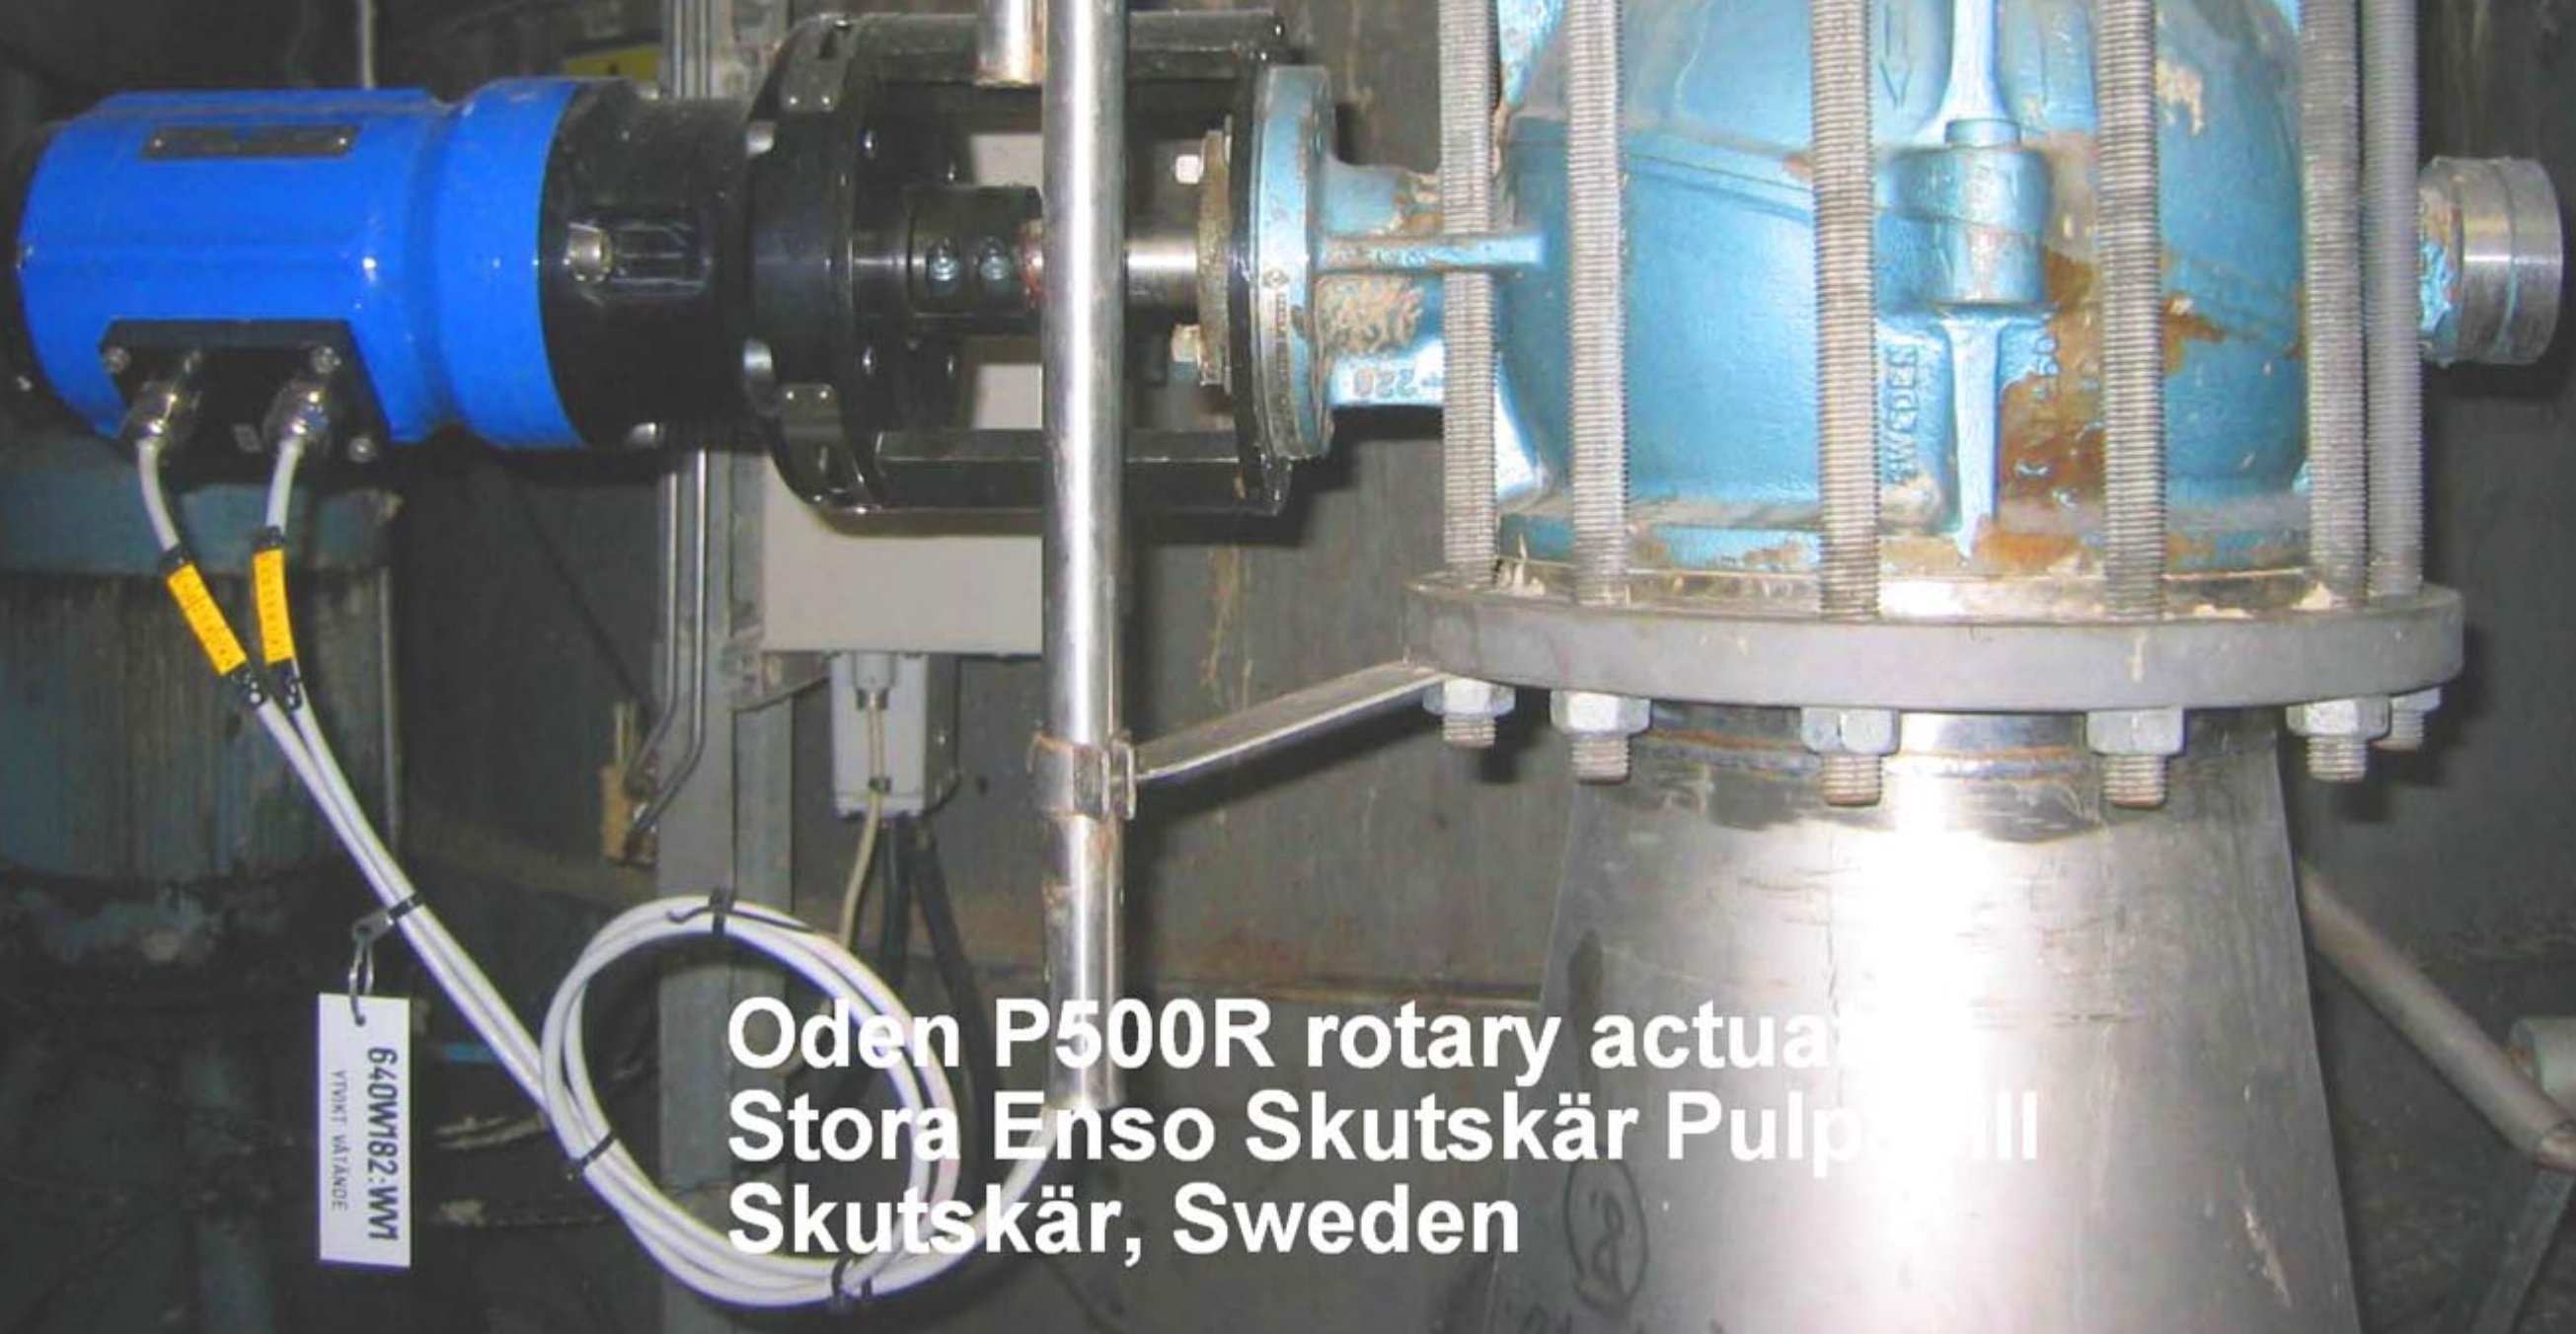

Oden P50R rotary actuator
Iggesund Paperboard Mill (Member of the Holmen Group)
Iggesund, Sweden

Grammage (basis weight) control

Oden P500R rotary actuator
Stora Enso Skutskär Pulp Mill
Skutskär, Sweden

Grammage (basis weight) control

640W182-MM
VINNT VÄRME

Oden P500R rotary actuator
Stora Enso Skutskär Pulp Mill
Skutskär, Sweden

Controlling the air to the sediment reservoirs

Oden P220R rotary actuator
SCA Obbola Linerboard Mill
Obbola, Sweden
